

# Management by Goals, Objectives & Key Results

## Best Practice Tips

- Focus work on a manageable number of Goals.
- Order and filter the goals with Now or Next tags.
- The goals of the Goalscape should not become overly granular. Add details in the Goal Panel instead.
- Work with colors to highlight goals where action is needed.
- Communicate and discuss intensely to ensure that you are pursuing mutual goals.
- Start with why – apply Sinek's Golden Circle and put your why in the goalscapes' center (TED).
- Celebrate achieved major goals! (from 80% upwards)

**Effective Goals** can be evolved using the FAST acronym: Frequently discussed, Ambitious, Specific, Transparent.

**An Objective is** an ambitious but achievable Goal. It often has a more qualitative, guiding nature.

**A Key Result is** clear and quantifiable. It is meant to indicate whether you have achieved a goal. (TED)
